

Feb 02, 2024 (Friday)		
08:30 onwards	Registration & Networking (R L Swarankar Auditorium)	
Session-I: Prof. Narinder Mehra Oration		
09:00 – 09:05	Introduction to the Oration	Uma Kanga, Secretary ISHI
09:05 – 09:35	Echoes of Injury: A Glance into the Next Generation Diagnostics	Medhat Askar Qatar (<i>NM Oration 2023</i>)
09:35 – 10:05	Personalized Immunogenetics In Medicine	Dominique Charron France (<i>NM Oration 2018</i>)
10:05 – 10:10	Felicitation	
Chairperson/s	Munish Kakkar, Gurvinder Kaur	
10.10 – 10.40	1994-2024: 30 Years of MIC Genes	Keynote Lecture 1 Seiamak Bahram France
10:40 – 10:50	Break	
Session-II: Progressive Trends in Donor Selection and Monitoring for HSCT		
Chairperson/s	G N Saxena, Vijay Nahta, Priya Marwah	
10:50 – 11:10	Sustainable Algorithms for Donor selection in HSCT	Dolly Daniel Vellore
11:10 – 11:30	Graft outcome of HLA haploidentical donors in Hematopoietic Stem Cell Transplantation	Ranjit K Sahoo New Delhi
11:30 – 11:50	Harnessing NK Cells for Improved Outcomes of HSCT and Cancer Therapy	Raja Rajalingam USA
11:50 – 12:10	Role of HSCT in the Era of Immuno-oncology	Purvish Parikh Jaipur
12:10 – 12:20	General Discussion	
12:20 – 13:00	Inaugural Ceremony	
13:00 – 13:45	Lunch and Trade Exhibition	
13:45 – 14:30	Werfen Symposium: Epitope matching and its significance in solid organ transplants	Christine Heylen Belgium
Session-III: Advancements in Solid Organ Transplant Monitoring		
Chairperson/s	Dhananjay Agarwal, Roonmoni Deka, Suraj Godara	
14:30 – 14:50	Renal Transplant Program in India: Opportunities and Challenges	Manish Balwani Nagpur
14:50 – 15:10	DSA vs Crossmatch: To Transplant or Not	Anil Handoo New Delhi
15:10 – 15:30	Prospective Multi-Centric Study to Analyse Pre Transplant Compatibility Algorithm for Live-Related Donor Renal Transplant in India	Aseem Tiwari Gurugram
15:30 – 15:50	Renal Transplant Monitoring : Donor Derived Cell Free DNA and Long Noncoding RNA to Predict Rejection	Uma Kanga New Delhi
15:50 – 16:00	General Discussion	

ISHICON

2nd - 4th February 2024, MGUMST, Jaipur, INDIA

Evolving Landscape of Immunogenetics and Transplant Evaluation

Feb 02, 2024 (Friday)

Session-IV: Young Scientist Presentations-I

Chairperson/s	Uma Kanga, Ajay Baranwal, Anand Nagar	
16:00 – 16:10	Identification of Novel HLA alleles by Next Generation Sequencing (NGS) in Renal Transplant patients	M. Neeraja Hyderabad
16:10 – 16:20	High risk alleles affecting outcome in haploidentical bone marrow transplantation for thalassemia	Priya Marwah Jaipur
16:20 – 16:30	A Case series on HLA matching and clinical outcomes in renal transplant patients: “Are we doing enough?”	Davood Bawa Jaipur
16:30 – 16:40	Influence of HLA-B leader (-21M/T) dimorphism on occurrence of graft versus host disease post allogenic hematopoietic stem cell transplantation	Disha Agarwal Chandigarh
16:40 – 16:50	Specificities of <i>denovo</i> Donor specific antibodies implicated in antibody mediated renal allograft rejection	Ayesha M. Abeywardane Sri Lanka
16:50 – 17:00	Better to be safe than sorry - How important is HLA testing prior to initiate allopurinol therapy	Sam Arul Doss. R Vellore
17:00 – 17:10	Comparison of the conventional flow cytometry technique and PCR for detection of HLA B27: Whether to go with the “flow”?	Peeyush Kumar Saini Jaipur
17:10 – 18:00	ISHI-GBM (R L Swarankar Auditorium)	
19:30 Onwards	Reception (Chokhi Dhani Resort. Please use your registration barcode for entries)
